Officials can enter feedback about Games/Teams that they have officiated. This can be enabled by going to Permissions under Group Setup and setting the "Notes - Game/Team Feedback" permission item to View or Edit.

This is a Pro Version feature.

Other Users / Types can be allowed to view or edit Game/Team Feedback as well. In addition, you can also grant certain Users / Types permission to manage the game-related notes by setting the "Notes" Permission item to Edit. This will allow them to edit any feedback item and will allow them to edit them outside of the normal time restrictions that Officials have.
